

Ontario Professional Engineers Foundation for Education

Job Posting: Website Designer

Organization Description

The Ontario Professional Engineers Foundation for Education (Engineers Foundation) is seeking a summer student to redesign our website.

As the registered charity of the engineering profession, the Engineers Foundation nurtures tomorrow's engineers by providing 102 scholarships a year to Ontario engineering students. Its purpose is to nurture tomorrow's engineers by providing deserving students with recognition, financial assistance, and connections into the path to engineering licensure.

Duties may include, but not limited to:

- Work with staff, marketing team, and summer students to understand the Foundation's audiences and goals, and review existing website redesign proposals
- Develop a website redesign plan that furthers the Foundation's identified goals, and delivers key messages for each target audience, while incorporating our existing branding/logo
- Implement the website redesign using WordPress CMS
- Write instruction sheets to allow simple updates to be done by future users

Qualifications:

- Must have training and/or experience in website design, WordPress, and coding
- Experience or training in graphic design an asset
- Comfortable working with a team, file sharing, and web applications
- Good communication skills and professionalism
- Must be registered as a full-time student in the previous academic year and returning to full time in the next academic year
- Must be a Canadian citizen or permanent resident and legally able to work in Canada
