

Pictured above are directors, members, guests and students at the Engineers Foundation AGM, May 2016.

For academic achievement and civic involvement:

- 30 First Year Scholarships (value \$1,500)
- 72 In Course Scholarships (value \$1,500)
- 15 Gold Medals (for highest achieving graduating student)

For commitment to international development:

- Engineers Without Borders Leaders for the Future (value \$2,000)
- For Ontario engineers experiencing financial hardship:**
- Financial assistance through the Benevolent Fund

SCHOLARSHIP ROI

Did you know that one \$1,500 scholarship could save
an engineering student
130 hours working a part-time, minimum wage job?

Dear PEO AGM guest,

On behalf of the **Ontario Professional Engineers Foundation for Education - *Engineers Foundation***, I want to congratulate President Comrie, President-Elect Dony, current and incoming Councillors, chapter leaders and all volunteers who give tirelessly of themselves to make our profession better.

It was the vision of people like you that created the Engineers Foundation in 1959 as the **only charity to provide financial assistance to Ontario's engineering students and licensed engineers.**

In 2016-17, we gave \$153,000 to 102 students in all 15 CEAB-accredited engineering schools in Ontario. A student when accepting their award said, *"It is an honour to accept and an inspiration to know that the engineering profession is so well supported in Ontario."*

We are funded by engineers. Please help us continue to provide excellent students with recognition, financial assistance and connections into the path to licence, as well as provide care to professional engineers in financial need. Invite your employer to match your gift.

Please join us. Attend our AGM on Thursday, June 29 in person or online. Hear from students about how your donation has helped them cope and feel included in our profession. RSVP at <http://bit.ly/2oZNsud>.

Thank you for your partnership.

Sincerely,

Marisa Sterling, FEC, P.Eng.
President and Chair
